

WISE Newfoundland and Labrador
Women in Science and Engineering

Wild About Mushrooms

Everyone is welcome!

SPEAKER: Faye Murrin, Ph.D.

Associate Dean, School of Graduate Studies
Memorial University

*New date, time
and location.*

7:00 pm, October 19, 2010

SN-3125A, Cator Andrews Seminar Room
Science Building, Memorial University

Fungi, big and small, are an important part of our everyday lives including medicinal and culinary. At this time of year, many of us take particular notice as we see mushrooms in wooded areas and gardens. Dr. Faye Murrin, mycologist and associate professor of Biology, will give us an illustrated presentation entitled "Wild about Mushrooms". Feel free to bring specimens for display or discussion.

Women in Science and Engineering Newfoundland and Labrador (WISE NL) is a non-profit, volunteer organization which aims to increase the participation of women in science, technology, engineering and mathematics careers by increasing awareness that these professions are rewarding and exciting options for women. WISE also provides mentoring, professional developing and networking opportunities to facilitate the success of women in these fields, and are advocates for equitable workplaces.
